

Central Facilities for Research and Development

Welcome to the Central Facilities for Research and Development (CFRD)—Sarvepalli Radhakrishnan University Bhopal.

Spanning over 60,000 sq. ft. and equipped with modern infrastructure, CFRD serves as a centralized hub for high-end research and development. It houses advanced facilities including the Central Instrumentation Lab and the Information Technology & Communication Lab, providing sophisticated analytical and testing services. These services are offered under a structured framework by a team of skilled, professionally trained technical staff.

CFRD plays a strategic role in supporting research scholars, faculty members, students, and external organizations—including academic institutions and industries—by offering access to state-of-the-art instrumentation and collaborative research platforms.

In addition to technical services, CFRD hosts a wide range of academic and capacity-building programs such as workshops, seminars, training sessions, and expert lectures. These initiatives are designed to enrich the research ecosystem and promote a culture of scientific inquiry.

Access to the facility is available to registered users; external researchers and organizations may also engage with CFRD through formal procedures and prior approval.

CFRD stands as a symbol of Sarvepalli Radhakrishnan University Bhopal commitment to excellence, accessibility, and innovation in research.
